Founding Team

Jeremy Beebe — Founder & CEO

Successful startup exit with Hempvada. Leading strategy, fundraising, and regulatory capture.

Key Hires — 2026 Roadmap

Based on the CSU SLV pilot (Q2 2026) and Phase 1 rollout, FarmSense requires the following roles:

Engineering

Role	Timing	Priority
VP of Engineering	Q2 2026	Critical — Lead technical execution
Senior Backend Engineer (FastAPI/TimescaleDB)	Q2 2026	Critical — Core platform build
Embedded Systems Engineer (LoRa/ESP32)	Q2 2026	Critical — PMT/VFA/LRZ firmware
Geospatial Data Engineer	Q3 2026	High — Kriging pipeline, PostGIS
DevOps/Cloud Engineer	Q3 2026	High — RDC/Zo deployment, CI/CD
React Frontend Engineer	Q3 2026	Medium — Farmer/regulator portals
Edge Compute Engineer (Go/Orin)	Q3 2026	Medium — DHU processing, FFT analytics
QA/Field Testing Engineer	Q3 2026	Medium — Pilot validation

Operations & Growth

Role	Timing	Priority
Head of Field Operations	Q2 2026	Critical — Pilot deployment, sensor installs
Regulatory Affairs Lead	Q3 2026	High — DWR integration, Water Court
Hardware Procurement Lead	Q3 2026	High — BOM management, vendor relations

Role	Timing	Priority
Head of Sales (Enterprise Ag)	Q4 2026	Medium — Commercial rollout prep
Customer Success Manager	Q4 2026	Medium — Farmer onboarding, training

Advisory & Governance

Technical Advisory Board: 2-3 experts in precision agriculture, hydrogeology, edge computing

Regulatory Advisory: Former State Engineer, water court veterans

Strategic Advisory: AgTech investors, former USDA/USGS leadership

---

Equity Philosophy

Stage	Equity Pool	Target Hires
Seed	10-15%	VP Eng, Head of Field Ops, Backend Lead
Series A	15-20%	Full engineering team, sales, regulatory
Advisor Pool	2-3%	Technical and regulatory advisors

Classification: CONFIDENTIAL — Investor Materials | Not for public distribution
